

# Christopher Sheahan

email: [chris.sheahan@live.com](mailto:chris.sheahan@live.com)

cell: 512-663-8459

## Education

**The University of Texas at Austin**  
B.S. in Computer Science

Expected Graduation Date: May 2016  
Overall GPA: 3.71/4.00

## Work Experience

### Microsoft

*Xbox Live Social Services Intern*

May 2015 - August 2015

### Bazaarvoice

*R&D Firebird TSF Intern*

June 2014 - December 2014

- Created a npm installable node.js module to interface with various internal APIs within Bazaarvoice with the purpose of data collection and aggregation. Also set up automated tasks such as linting, unit testing, and documentation via gulp.
- Worked on tickets concerning tools, support, and frameworks on the Firebird product, a full stack JavaScript application to collect and display ratings and reviews.
- Assisted in remaking a web interface for aggregating and displaying real time information and analytics for the Firebird product.

### Qualcomm

*QCT Linux EIP Intern*

May 2013 – August 2013

- Added a diff tool to a web application using HTML, JavaScript, and PHP.
- Created a stress tester application that automates multimedia tests on all new Android phones and tablets.

## Skills

Programming Languages: Experienced in Java. Moderate experience with JavaScript, node.js, and C. Some experience with 6502 assembly and Perl.

Some experience with Android development, Jenkins, and TeamCity.

## Projects

### Personal Projects

- HighLow NES - A homebrew NES game based on the card game High Low made using 6502 assembly. The project can be found here: <https://github.com/csheahan/HighLow-NES>
- NumberTheoryProblems - Various number theory problems solved using python connected to a tkinter GUI. The project can be found here: <https://github.com/csheahan/NumberTheoryProblems>
- nesPaint - A simple java GUI paint application which decodes chr sprite files and allows for fast creation of NES style backgrounds. The project can be found here: <https://github.com/csheahan/nesPaint>
- Student Website - A simple responsive website using Yahoo's Pure CSS modules detailing projects, schoolwork, and activities. Link: <http://www.cs.utexas.edu/~csheahan/>  
Code: <https://github.com/csheahan/student-homepage>

## Leadership and Achievements

Treasurer of ACM

May 2013 - May 2015

- Managed over \$36,000 in sponsorship money, membership dues, and raised money over two years
- Restarted ACM's competitive programming program, including: budgeting and running biweekly contests, designing the front end of an in house auto judge program, and providing prizes and food to contestants.
